

# Read The Book

**L**ife is so busy nowadays that it seems we have less time for those things that matter most.

God can seem distant and irrelevant, perhaps as nothing more than a cultural artefact. For many, the evidence presented by science and technology seems more real than God.

Well, can I ask, have you carefully weighed the evidence? I mean, have you actually read the Bible?

The Bible is the world's most printed and published book, and woven in its pages is a testimony that we must personally evaluate for ourselves.

Don't just listen to what others say about it. I encourage you to take the time to read the Bible – whether you approach it as a cultural, historical or literary work, or even from a moral and spiritual view, weigh up the evidence, and then decide:

- whether there is a God,
- whether He has priority in your life
- and, what changes you need to make.

For the MessageWeek team, I'm John Klassek.
